# Nordic Research and Innovation Pathways towards a Circular Bio-economy

A combination of keynote presentations held by carefully selected speakers, short lightning speeches, and poster presentations from research projects, industry, government and relevant EU or Nordic funded research projects provide an interesting and interactive program.

Conference participants are invited to present their work at poster sessions during the conference; deadline first submission is 3.10.2016 -short poster summary and title, and deadline final version 17.10.2016 (submit to email: eirin.bar@sintef.no)
