template

Execution group 1 mark the MH card of the student who are standing in the queue .

Execution group 2 stamp the MH card uniformly to record the situation of wasting food. Supervision group should supervise the situation of all the works.

Every month, statistics group use the data to reward or punish the students by calculating their waste.

The people should hold the MH card to eat in the mass hall and have the card signed by implementation team. People who waste upon ninety percent of the food will be punished, such as clean up the dining hall. However, people who finished ninety percent of the food will be given a special potting and prior rights to line up for five people as rewards.
