30 to 50% of all the food produced in the world is wasted.
The economic value of the food waste produced by Dutch companies is €1 billion per year.
Wastewatchers helps companies to cut down cost on food waste with:

# wastewatchers
Our goal:
To supply knowledge and insights to reduce food waste preventively.
We strive to supply insights and control to managers.
We supply knowledge for new food concepts and are able to test these concepts.
And we fight this problem.
Our five steps of added value:

1: To create awareness by sharing facts and figures.
2: To stimulate sustainable policies to prevent food waste.
3: To test new concepts by monitoring (im)popularity.
4: To reduce food waste by 20%.
5: To realise cost savings by reducing food waste.
